

Dochter met fragile x syndroom en prader willi

The infographic is divided into two horizontal sections. The top section features a blue silhouette of a baby on the left. To its right, a list of symptoms is provided. The bottom section features a blue silhouette of a child on the left. To its right, another list of symptoms is provided. A dark blue banner with white text separates the two sections.

- Lethargy (tiredness).
- Poor feeding ability.
- Weak muscle tone.

Symptoms that become more apparent as children grow may include:

- Almond-shaped eyes.
- A long, narrow head.
- A triangular mouth.
- Short height.
- Small hands and feet.
- Underdeveloped genitals.

Wij hebben een dochter met een serieuze afwijking echter nog te weinig rond bekend we willen ze volwaardig leven gunnen
